Famo is a formula worked out in one of the great pharmaceutical houses of Detroit. Three years were required to develop Famo.

It proved its efficacy before it was offered to the public. The way in which Famo does its work is almost unbelievable

Transformation is Wonderful

Almost at once your eyes testify to the transformation. New hair grows like the hair of healthy children

The scalp becomes like the scalp of a baby. All itching of the scalp is stopped. Famo brings back the look of health by a softness and lustre

beyond words to describe. Famo Destroys Bacilli Famo removes the obstacle to

growth, when it kills the seborrhea (dandruff) þacilli. Freed from the bondage of disease, the hair leaps into luxuri-

In women the change is won-derful. If their hair was normally beau-tiful, the beauty is intensified.

Fame Contains No Alcohol

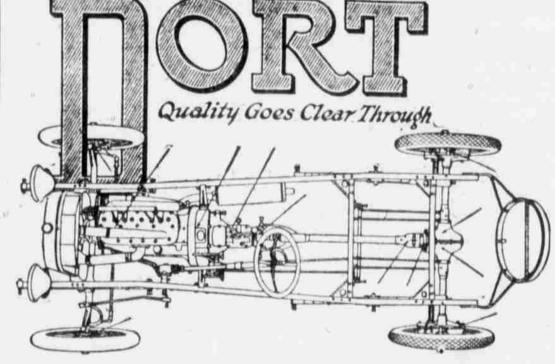

The natural color is enhanced and grayness is retarded. Fama contains no alcohol. Alcohol, if used persistently, is harmful to the hair, as if drys the scalp. Pamo comes in two sizes—a small size for 55 cents and an catra large eign at 51. Your money hath if it doesn't satisfy.

Every member of the family abould use it Pamo is sold at all toilet goods coun-ters. Applications may be had at the better harber shops.

Schorthea is the medical name for a morbidly increased flow from the schowous glands of the scale. The school of the scale that is summorly known as danited. MAL by THE FAMO CO., DETROIT

The Economy of Big Bearings

The Hyatt high duty bearings on the axle shafts and the Timkens on the pinion shafts of Dort cars are big enough to give a fair factor of safety on cars of almost twice the weight.

Yet, Dort bearings throughout the chassis are proportionately just that over-big.

It's not for ordinary driving that Dort bearings are fitted. It is for the emergency strain upon them and above everything else for long life and very infrequent adjustment.

Bearings are of the right type for their particular duty-cone and cup in front wheels, New Departure ball bearings on the transmission main shafts, phosphor-bronze on the transmission countershaft big ones, all of

Dort bearings don't wear out. They stay tight longer. But, when adjustment does become necessary there is provision for quick and easy take up in every bearing in the car where adjustment is at all feasible.

We will point out these unusual points
